An approach to management accounting from the perspective of a business manager. Management Accounting: Information for Decision-Making and Strategy Execution explains how business managers can estimate and manage the cost and profitability of their products and customers. This text also covers how managers use financial and nonfinancial information to improve processes, design and develop new products, and motivate employee performance.

A novel about freaks, geeks, crushes, and friends—and how sometimes you can be all of them at once. Charlie is the freak. Gloria is the freak magnet. They're pretty much destined to meet. And when they do, sparks fly . . . for Charlie. Gloria, well, she just thinks he's like every other freak who feels compelled to talk to her, although a little better-looking than most. While Charlie has his head in the clouds, Gloria's got hers in a book: her Freak Folio—a record of every weirdo who's talked to her in the last year (it's a big book). But never before has she felt the pull to get to know one of them better. Until now. In this he-said-she-said tale of love, loss, and lucky signs from the author of the acclaimed Funny Little Monkey, two young strangers at a crossroads in their lives become friends by happy accident (okay, maybe some harmless stalking is involved—and not by the person you'd think!) and forever change each other.

This text is a compilation of recent business press and academic articles. Each section is introduced to the student with a summary of articles and their overall contribution to the topic. Readings conclude with a set of questions designed to provoke thought and analysis on the part of the student and can be used with other management accounting texts currently on the market.

"Can be used to supplement any management or cost accounting text ... readings have been designed to accompany Anthony Atkinson['s] ... textbook, Management accounting, 6th ed., (Pearson Prentice Hall 2011)"--Pref.

Strategic Managerial Accounting: Hospitality, Tourism & Events Applications 6edn explores the nature of these industry sectors and how these impact on the strategic managerial accounting (SMA) tools used by decision makers in the industry. Formerly known as Managerial Accounting in the Hospitality Industry by Harris and Hazzard, this new edition builds on this successful and well known text, retaining its practical approach and active learning style, extending to consider strategic management accounting and to include tourism and events management industry contexts. This new 6th edition incorporates discussion, explanations and illustrations of the theoretical underpinning of hospitality, tourism and events related to SMA and managerial accounting concepts and techniques, together with specific examples of industry application. It has a user friendly chapter structure, with pedagogic features including objectives, learning activities, self check questions, references, and key points summaries. Each chapter includes 'theoretical context' sections which put the applied learning in the context of current research and thinking to bring the theory to life. Key features of this text are: * A complete revision and expansion of the well known and successful Harris and Hazzard text; * Includes several brand new chapters such as: Event and Function Management Accounting techniques, Sustainability & Environmental Management Accounting (EMA), Not-for-profit Organisations, Current Issues in Strategic Management Accounting; * Uses international real life case studies to illustrate from across the hospitality, tourism and events sectors including charity (not-for-profit) sector and music events; * Links to applied and generic research on each topic; * Includes International Financial Reporting Standards (IFRS) terminology suitable for an international audience. With a complete suite of online tutor resources, this book is essential reading for all year 2/3 undergraduate and postgraduate students studying hospitality, tourism and events management.

Volume one of the Handbooks of Management Accounting Research sets the context for both Handbooks, with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. The bulk of the first volume then draws together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives. The volume includes a chapter which looks at work informed by psychology as a base discipline. The volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting. Special pricing available if purchased as a set with Volume 2. Documents the scholarly management accounting literature Publishing both in print, and online through Science Direct International in scope
