In 1970, nine members of a Japanese New Left group called the Red Army Faction hijacked a domestic airliner to North Korea with dreams of acquiring the military training to bring about a revolution in Japan. The North Korean government accepted the hijackers--who became known in the media as the Yodog? group, based on the name of the hijacked plane--and two years later they announced their conversion to *juche*, North Korea's new political ideology. Little was heard from the exiles until 1988, when a member of Yodog? was unexpectedly arrested in Japan, and communications with the group opened up in the context of his trial. As a former Red Army Faction member, journalist K?ji Takazawa made several trips to North Korea, re-established his ties to the group's leader Takamaro Tamiya, and helped to publish the group's writings in Japan. After Kim Il Sung revealed that Yodog? members had Japanese wives, Takazawa published a book of interviews with the women, but in the process became suspicious about the romantic stories they told. He also wondered about the members who were missing, and learned more details in long, private conversations with Tamiya. After Tamiya's sudden death in 1995, Takazawa launched his own investigation of what the group had actually been doing for two decades, even traveling to Europe to follow traces there. An example of superb investigative journalism, *Destiny: The Secret Operations of the Yodog? Exiles* offers K?ji Takazawa's powerful story of how he exposed the Yodog? group's involvement in the kidnapping and luring of several young Japanese to North Korea, as well as the truth behind their Japanese wives' presence in the country. Takazawa's careful research was validated in 2002, when the North Korean government publicly acknowledged it had kidnapped thirteen Japanese citizens during the 1970s and 1980s, including three people whom Takazawa had connected to the Yodog? hijackers. Embedded in his pursuit

toward what truly happened to the Yodog? members is Takazawa's personal reflection of the 1970s, a decade when radical student activism swept Japan, and what it meant to those whose lives were forever changed.

The Fifty-Year Wound is the first cohesively integrated history of the Cold War, one replete with important lessons for today. Drawing upon literature, strategy, biography, and economics -- plus an inside perspective from the intelligence community -- Derek Leebaert explores what Americans sacrificed at the same time that they achieved the longest great-power peace since Rome fell. Why did they commit so much in wealth and opportunity with so little sustained complaint? Why did the conflict drag on for decades? What did the Cold War do to the country, and how? What was lost while victory was gained? Leebaert has uncovered an astonishing array of never-published documents and information, including major revelations about American covert operations and Soviet military activities. He has found, in the shadows of one of this century's great, epic stories, the sort of details and explanations that hit with the force of a lightning bolt and will change forever the way we think about our past.

evidence. The books does not pretend to be documentary. It is an action-packed novel describing the events of the past. Maybe the real ones?

From spy missions to code breaking, this richly illustrated account of the covert operations of World War II takes readers behind the battle lines and deep into the undercover war effort that changed the course of history. a From the authors who created a Eyewitness to World War II and numerous other best-selling illustrated reference books, this is the shocking story behind the covert activity that shaped the outcome of one of the world's greatest conflicts-and the destiny of millions of people. National Geographic's landmark book illuminates World War II as never before by taking you inside the secret lives of spies and spy masters; secret agents and secret armies; Enigma machines and code breakers; psychological warfare and black propaganda; secret weapons and secret battle strategies. Seven heavily illustrated narrative chapters reveal the truth behind the lies and deception that shaped the o secret war; o eight essays showcase hundreds of rare photos and artifacts (many never before seen); more than 50 specially created sidebars tell the stories of spies and secret operations. Renowned historian and top-selling author Stephen Hyslop reveals this little-known side of the war in captivating detail, weaving in extraordinary eyewitness accounts and information only recently declassified. Rare photographs, artifacts, and illuminating graphics enrich this absorbing reference book.

Startling allegations. Suppressed evidence. Missing witnesses. Assassinations. Cover-ups and threats. Documented connections to even deeper intrigue. Allusions to the New World Order. Coincidences? Too many to be mere coincidence? American history is replete with warnings of

Download Ebook Destiny The Secret Operations Of The Yodog Exiles

hidden plots by the Illuminati, the Freemasons, the Zionists, the Roman Catholics, the Communists, World Bankers, the Secret Government, and Extra-Terrestrial Invaders, to name a few. Separating fact from fiction, this compelling work provides gripping details and presents the information without bias, including hundreds of individuals, organizations, and events where official claims and standard explanations of actions and events remain shrouded in mystery. *Conspiracies and Secret Societies: The Complete Dossier* examines the most common subjects among conspiracy theorists, from historical topics such as the true relationship between Jesus and Mary Magdalene, the Roswell UFO crash, and the assassinations of John F. Kennedy and Martin Luther King Jr. to more current issues such as the death of Princess Diana, FEMA's response following hurricane Katrina, and the recent earthquake and tsunami in Japan.

"From spy missions to code breaking, this richly illustrated account of the covert operations of World War II takes readers behind the battle lines and deep into the undercover war effort that changed the course of history. Rare photographs, artifacts, and illuminating graphics enrich this absorbing reference book"--

An interdisciplinary look at the dramatic changes in the contemporary Japanese family, including both empirical data and analyses of popular culture.

Julie Smith and Graeme McKenzie grew up together but their budding teenage romance dramatically stalls. Julie becomes a leading fashion designer in New Zealand while Graeme follows an exciting career in the R.A.F. Both separately marry, but they secretly hold deeply hidden feelings for each other. Thrown together by a chance encounter in Sydney, Australia their mutual secret surfaces and a sensuous weekend follows. Yet professional and domestic commitments means they must part once more. Can their normal lives ever resume? Can they live a doublelife? Follow them through four stages of their diverse worlds of high fashion and of a high ranking and heroic air force officer.

Conformist, mute and malleable? Andrews tackles head-on this absurd caricature of Japanese society in his fascinating history of its militant sub-cultures, radical societies and well-established traditions of dissent Following the March 2011 tsunami and Fukushima nuclear crisis, the media remarked with surprise on how thousands of demonstrators had flocked to the streets of Tokyo. But mass protest movements are nothing new in Japan and the post-war period experienced years of unrest and violence on both sides of the political

Download Ebook Destiny The Secret Operations Of The Yodog Exiles

spectrum: from demos to riots, strikes, campus occupations, faction infighting, assassinations and even international terrorism. This is the first comprehensive history in English of political radicalism and counterculture in Japan, as well as the artistic developments during this turbulent time. It chronicles the major events and movements from 1945 to the new flowering of protests and civil dissent in the wake of Fukushima. Introducing readers to often ignored aspects of Japanese society, it explores the fascinating ideologies and personalities on the Right and the Left, including the student movement, militant groups and communes. While some elements parallel developments in Europe and America, much of Japan's radical recent past (and present) is unique and offers valuable lessons for understanding the context to the new waves of anti-government protests the nation is currently witnessing.
