Edward Goodrick's classic guide introduces the alphabets and basic elements of Greek and Hebrew grammar. With this foundation, the student is encouraged to use some basic language tools, including analytical, lexicons, interlinears, concordances, and commentaries.

This complete interlinear Bible, available in English, is keyed to "Strong's Exhaustive Concordance." Featuring the complete Hebrew and Greek texts with a direct English rendering below each word, it also includes the literal translation of the Bible in the outside column.

Recent archeological and linguistic evidence reveals that the Jews of the New Testament era spoke Hebrew, not Greek as has been taught for so many years. With this revelation, we can conclude that the teachings of the New Testament were first conveyed, either in spoken or written form, in Hebrew, which means that the New Testament must be understood from a Hebraic perspective and not a Greek one. The first step in this process is to translate the Greek words of the New Testament into Hebrew. While translating the Greek words into Hebrew, may sound overwhelming for many, it is in fact, a very simple process that anyone can perform, even without any prior studies in Greek or Hebrew. All that is required is a Strong's Concordance and this book. This book lists the five hundred most frequent Greek words of the New Testament and provides their Hebrew translations and Hebraic definitions, with all Greek and Hebrew words cross-referenced with Strong's numbers.
