Kitchen, cooking, nutrition, and eating have become omnipresent cultural topics. They stand at the center of design, gastronomy, nutrition science, and agriculture. Artists have appropriated cooking as an aesthetic practice - in turn, cooks are adapting the staging practices that go with an artistic self-image. This development is accompanied by crisis of eating behaviour and a philosophy of cooking as a speculative cultural technique. This volume investigates the dimensions of a new culinary turn, combining for the very first time contributions from the theory and practice of cooking.

This vintage book contains a simple, concise guide to bottling fruit and vegetables, including simple step-by-step instructions and a selection of recipes and articles on the subject. This detailed guide will be of considerable utility to those with a practical interest in preserving home-grown produce. It will make for a worthy addition to any collection of fruit growing literature. Although old, the information contained within its pages will be useful to the modern reader, making it both a handy resource and an appealing text for collectors. The chapters of this volume include: 'Bottling Soft Fruits', 'Bottling Stone Fruits', 'Bottling Various Fruits and Vegetables', 'Fruit Bottling', 'Home Bottled Fruits and How to do Them', and 'Bottling or Canning'. We are republishing this vintage text now in an affordable, modern edition - complete with a specially commissioned introduction on food preservation.

The first International Conference on Energy Efficiency in Household Appliances was held in Florence, Italy, in November 1997. This book provides a full account of presentations made, discussions and conclusions reached during the four days of the Conference. It offers a comprehensive picture of the issues at stake, of the results achieved so far through the design and application of standards, the promotion of a better consumer information, the development of energy efficient products and technologies as well as of test methods and other analytical tools.

Geared towards parents with children between the ages of two and twelve, Fun with the Family Virginia features interesting facts and sidebars as well as practical tips about traveling with your little ones.

The AMMI recommended practice, Comprehensive guide to steam sterilization and sterility assurance in health care facilities, is a breakthrough standard in terms of its scope. AMMI has updated ST79 with the release of ST79:2010/A4:2013. Of particular importance, A4:2013 provides four new figures demonstrating the wrapping of items for steam sterilization and adds an annex focused on Moisture assessment. As of Oct. 25, 2013, purchasers of ST79 will receive ANSI/AMMI ST79:2010 and A1:2010 and A2:2011 and A3:2012 and A4:2014 as a single consolidated document. Among other changes from the 2006 edition of ST79, this revised and expanded second edition of ST79 includes guidance on the use and application of Class 6 emulating indicators, a chemical monitoring device fairly new to the United States. Because ST79 essentially consolidates five AMMI steam sterilization standards (whose content was reviewed and updated to reflect current good practice prior to being incorporated into ST79), it truly is a comprehensive guideline for all steam sterilization activities in healthcare facilities, regardless of the size of the sterilizer or the size of the facility, and provides a resource for all healthcare personnel who use steam for sterilization.

Savoury bakes have always been one of the most popular family dishes. They're so easy - often cooked in just one dish. They usually have a crispy crunchy topping - potato, cheese, breadcrumbs - it's no wonder they're irresistible. Bakes and Gratins includes recipes for pasta bakes, potato and other vegetable bakes, fish bakes, chicken bakes and meat bakes. All you need to serve with a bake is a salad and you have an easy-to-prepare, well balanced and totally delicious family lunch or dinner.
