Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.

This currency trading book provides readers with real, practical information on how to trade the foreign exchange market effectively. It begins by covering introductory information on the forex market, including basic trading mechanics and the benefits of forex trading, and then goes on to describe specific currency trading methods and skills in step-by-step detail. This includes highly practical information on technical and fundamental analysis, risk and money management, and powerful forex trading strategies. These strategies have proven extremely effective in helping traders play the forex game to win. JAMES CHEN, CTA, CMT (Montville, NJ) is Chief Technical Strategist at FX Solutions, a leading foreign exchange broker. An expert on forex trading and technical analysis, he is also a registered Commodity Trading Advisor (CTA) and a Chartered Market Technician (CMT). Mr. Chen writes daily currency analysis, leads forex trading seminars, and has authored numerous articles on currency trading strategy and technical analysis for major financial publications. These include Forbes.com, Futures Magazine, Technical Analysis of Stocks and Commodities Magazine, and Stocks, Futures and Options (SFO) Magazine.

In-depth Level II exam preparation direct from the CAIA Association CAIA Level II is the official study guide for the Chartered Alternative Investment Analyst professional examination, and an authoritative guide to working in the alternative investment sphere. Written by the makers of the exam, this book provides in-depth guidance through the entire exam agenda; the Level II strategies are the same as Level I, but this time you'll review them through the lens of risk management and portfolio optimisation. Topics include asset allocation and portfolio oversight, style analysis, risk management, alternative asset securitisation, secondary market creation, performance and style attribution and indexing and benchmarking, with clear organisation and a logical progression that allows you to customise your preparation focus. This new third edition has been updated to align with the latest exam, and to reflect the current practices in the field. The CAIA designation was developed to provide a standardized knowledge base in the midst of explosive capital inflow into alternative investments. This book provides a single-source repository of that essential information, tailored to those preparing for the Level II exam. Measure, monitor and manage funds from a risk management perspective Delve into advanced portfolio structures and optimisation strategies Master the nuances of private equity, real assets, commodities and hedge funds Gain expert insight into preparing thoroughly for the CAIA Level II exam The CAIA Charter programme is rigorous and comprehensive, and the designation is globally recognised as the highest standard in alternative investment education. Candidates seeking thorough preparation and detailed explanations of all aspects of alternative investment need look no further than CAIA Level II.

Purchase it today to receive access to: Series SIE review materials Series SIE practice questions Test-taking strategies

Praise for Foreign Exchange "Tim Weithers starts by telling the reader that foreign exchange is not difficult, just confusing, but Foreign Exchange: A Practical Guide to the FX Markets proves that money is much more exciting than anything it buys. This useful book is a whirlwind tour of the world's largest market, and the tour guide is an expert storyteller, inserting numerous fascinating insights and quirky facts throughout the book." -John R. Taylor, Chairman, CEO and CIO, FX Concepts "The book reflects the author's doctorate from the University of Chicago, several years' experience as an economics professor, and, most recently, a very successful decade as an executive at a huge international bank. These fundamental ingredients are seasoned with bits of wisdom and experience. What results is a very tasty intellectual stew." -Professor Jack Clark Francis, PhD, Professor of Economics and Finance, Bernard Baruch College "In this book, Tim Weithers clearly explains a very complicated subject. Foreign Exchange is full of jargon and conventions that make it very hard for non-professionals to gain a good understanding. Weither's book is a must for any student or professional who wants to learn the secrets of FX." -Niels O. Nygaard, Director of Financial Mathematics, The University of Chicago "An excellent text for students and practitioners who want to become acquainted with the arcane world of the foreign exchange market." -David DeRosa, PhD, founder, DeRosa Research and Trading, Inc., and Adjunct Professor of Finance, Yale School of Management "Tim Weithers provides a superb introduction to the arcana of foreign exchange markets. While primarily intended for practitioners, the book would be a valuable introduction for students with some knowledge of economics. The text is exceptionally clear with numeric examples and exercises that reinforce concepts. Frequent references are made to the economic theory behind the trading practices." -John F. O'Connell, Professor of Economics, College of the Holy Cross

IS-7 Course Overview This independent study course provides a basic understanding of the roles and responsibilities of the local community, State, and the federal government in providing disaster assistance. It is appropriate for both the general public and those involved in emergency management who need a general introduction to disaster assistance. CEUs: 1.0 Course Length: 10 hours
